To: Whom it May Concern;

CMT/ABATE was awarded a grant by the Department of Safety//Motorcycle Rider Education Program for the purpose of promoting motorcycle awareness in Tennessee. The small traffic signs with the awareness message was understood to be a part of their agenda. While signs are not official TDOT or NHTSA approved signage it is believed that their use does help in promotion of the awareness message. Any entity that chooses to voluntarily post these signs will certainly help in the safety awareness message that we are attempting to support. The signs have been used in other states across the country and have been well received. This is an entirely voluntary action by the city or county in promoting motorcycle awareness. Thank you for your assistance.
